Air Medical Group Holdings, Inc. health screening is a voluntary wellness program available to all employees. The program is administered according to federal rules permitting employer-sponsored wellness programs that seek to improve employee health or prevent disease, including the Americans with Disabilities Act of 1990, the Genetic Information Nondiscrimination Act of 2008, and the Health Insurance Portability and Accountability Act, as applicable, among others.

Participating: By participating in the screening, the participant consents to the collection of blood sample(s) (total cholesterol, HDL, LDL, triglycerides, glucose, and similar information) and receipt of information for these test(s). This health information will be gathered by testing a blood sample obtained from the participant. The participant understands that the collection of blood through a needle or fingerstick may cause a little pain, and that there is a small chance the needle or lancet could cause bleeding, a bruise or (rarely) an infection. The participant understands that the health screening performed will require a technician to draw his/her blood with a needle or fingerstick, and the participant hereby consents to the technician drawing his/her blood with a needle or fingerstick, and the participant being to the collection of additional biometrics (height, weight, blood pressure, waist circumference). The participant hereby releases Wellness First/BHS, Air Medical Group Holdings, Inc., Lockton Companies and any other organizations associated with collection of biometrics, including blood drawing for the indicated test(s) measurement(s), or from the data delivered there from. The information from your biometric screening will be used to provide you with information to help you understand your current health and potential risks. You are also encouraged to share your results or concerns with your own doctor.

Protections from Disclosure of Medical Information: We are required by law to maintain the privacy and security of your personally identifiable health information. Although the wellness program and Air Medical Group Holdings, Inc. may use aggregate information it collects to design a program based on identified health risks in the workplace, Wellness First health screening program will never disclose any of your personal information either publicly or to the employer, except as necessary to respond to a request from you for a reasonable accommodation needed to participate in the wellness program, or as expressly permitted by law. Medical information that personally identifies you that is provided in connection with the wellness program will not be provided to your supervisors or managers and may never be used to make decisions regarding your employment.

Consent for Health Screening: By participating in this health screening, the participant understands that certain health issues may be identified, such as high blood glucose and high cholesterol; however, this screening cannot and should not be considered a substitute for a thorough examination by, or testing recommended by, the participant's personal physician. The screening data received by the participant is for informational use only and should not be considered diagnostic or conclusive.

The participant also understands and agrees that:

- It is recommended that the participant share the test results with his/her personal physician.
- The participant assumes responsibility for consulting with his/her personal physician regarding the test results and/or symptoms. Unless the participant shares the results with his/her personal physician, no physician will interpret the results of the participant's health screening.
- Neither Air Medical Group Holdings, Inc., Lockton Companies nor the screening provider are responsible for interpreting the findings of the health screening and will not follow-up with the participant concerning diagnosis or care.
- The participant understands and agrees that self-diagnosis or self-adjustment of medication is dangerous and that only a physician is qualified to interpret the significance of the blood tests and any other screening tests conducted as part of the participant's health screening.
- THE PARTICIPANT HAS READ THIS NOTICE AND CONSENT IN ITS ENTIRETY, OR HAD IT READ TO HIM/HER, AND AGREES TO ITS TERMS.
- THE PARTICIPANT AGREES THAT S/HE HAS BEEN GIVEN AN OPPORTUNITY TO ASK QUESTIONS ABOUT THIS NOTICE AND CONSENT AND THE HEALTH SCREENING PROCEDURES THAT THE PARTICIPANT WILL BE RECEIVING.
- THE PARTICIPANT BELIEVES THAT S/HE HAS SUFFICIENT INFORMATION TO PROVIDE INFORMED CONSENT FOR THE HEALTH SCREENING. THE
